Our Christmas range with English-language packaging

13 hand-scooped Christmas chocolates make the festive season sweet with pralines, toffee, cinnamon apples, marzipan, nuts, candied almonds and much more. 4 of these are entirely vegan, such as the new »Jingle Bell Rock« with a vegan red wine filling. An all-new creation is the »Christmas Surprise« with a caramel praline crunch filling. There are 2 new chocolates coming in right on time for St. Nick's & Krampus – »Plummy Krampus« with plums in brandy, and a vegan »Sweet St. Nick's« chocolate with our brand new, soft and vegan caramel on a tangerine marzipan layer. This vegan delicacy will be available all year round as »Tangerine Tonka Caramel«. We are also proud to present many hand-decorated Mi-Xing stars and hearts.

Our Christmas range with German-language packaging

Our latest »For the Best Employees in the World!« chocolate is a sweet gift with cheesecake filling. The pure Labookos feature a new vegan »Miracles and Fairy Tales« bar created using oat drink chocolate, and a white coconut bar. Our »Snow Angel« is a single Labooko bar in a 35g format – a white chocolate sweetened with sugar and almonds. There's our new »Angel Snack« in the Cheery & Nuts range, a seductive bit of deliciousness made from milk chocolate and caramel praline with crispy bits of orange. 6 Advent calendars will also brighten your festive season. Our fold-out Labooko calendar looks resplendent in a new red-and-gold design and offers several new flavours and a new, unfolded format. The hand-scooped Advent calendar also has a magic red and gold Christmas bauble design and many new flavours. All Advent calendars come in sales units of 5 per pack, and are now also available individually at a small extra charge. The new »5 Advent Calendar Mix« with 5 different Advent calendars – one per sales unit – will be particularly attractive for smaller stores.

Wishing you much joy selecting this year's Christmas offering.

100% ORGANIC + FAIR + BEAN-TO-BAR

Our entire business is Fair Trade verified. We are a member of WFTO – the World Fair Trade Organization, which is the umbrella organization for global fair trade. The WFTO monitors business compliance with the 10 principles of fair trade like transparency, respect for the environment, the payment of fair prices and no use of child labour among others. For more on this, go to www.zotter.at/fair-trade and www.wfto.com

100% BEAN-TO-BAR: Zotter chocolates are produced starting from the bean in our bean-to-bar chocolate factory.

All the ingredients for the chocolate come from ORGANIC cultivation. The number of the organic board of control serves as identifying information. ORGANIC control number: **AT-BIO-402**

WFTO - LABEL OF EXCELLENCE

The independent NGO "Südwind" has closely examined all the WFTO's current ecology, transparency and social effectiveness credentials and has designated it exemplary in terms of credibility and social issues. The World Fair Trade Organization (WFTO) is the international umbrella association for more than 400 fair trade organisations in around 70 countries. In Austria, members of the WFTO are **ARGE Weltläden, EZA and Zotter**. BIOGENIC PACKAGING & BIOPLASTICS

Around 90% of our packaging is biogenic and made from renewable raw materials. We use certified paper from sustainable sources and environmentally friendly colours for all our packaging. DESIGN

Andreas H. Gratz (A-H-G), Zotter's art director has created our beautiful designs with pen and tons of humour since 1994. www.a-h-g.at

ORGANIC SOY LECITHIN

We use soy lecithin from controlled organic cultivation in white and milk chocolates. Soy lecithin is guaranteed non-GMO and environmentally friendly, as no part of the rain forest is destroyed for its cultivation. Our dark chocolate does not contain soy lecithin.

STORAGE ADVICE

We do not use any artificial stabilizers or preservatives. For this reason, our goods are more temperature sensitive than other high-quality chocolate products.

Ideally you should store Zotter chocolates in a cool and dry place where the temperature is between 16 °C and 18 °C.

You should not put the chocolates into a fridge. This way they would lose their substance because the humidity would let the sugar crystallise. If the temperature is too high, though, it will result in the emission of cocoa butter which will settle as a white film on the surface of the chocolate. The loss of the cocoa butter will dry out the chocolate – hence, the flavour of the chocolate will suffer.
